## SHOULD A WOMAN DIVORCE?

THE SOCIAL PROBLEM OF THE DAY  
MATINEE TODAY, 2:30 EVENING 7:45

### For Luncheons and Dinners

We are prepared to furnish our delicious ice cream in individual molds of shapes and colors to harmonize with the table decorations.

Price, 15 cents each, or \$1.75 a dozen.

HONOLULU DAIRYMEN'S ASSOCIATION  
TELEPHONE 1542.

By Mrs. Janet McKenzie Hill.  
**Read Carefully** In the wonderful K C Cook's Book, Mrs. Janet McKenzie Hill, of Boston Cooking School fame, tells every housewife how to become an expert cook—how to prepare such appetizing dishes the family will go simply wild over what you set before them.

The K C Cook's Book is illustrated in 9 colors, contains 90 tested and proven recipes that will be successful every time if the few simple suggestions are followed. The K C Cook's Book has been prepared at an expense of many thousands of dollars, and if purchased at a store would cost 50 cents, yet we give it absolutely free as we want you to know exactly what K C Baking Powder is and what it will do for you in your own kitchen. You need this wonderful book—it is of vital importance to every housewife.

#### How to get the Cook's Book

Write your name and address plainly on this coupon. Attach the colored certificate packed in 25-cent cans, sending both to us. You will be mighty glad you did. Jacques Mfg. Co., Chicago.

## Ideal Clothing Company Opens Its Handsome Store

Architect's drawing of handsome new store front.

What can be counted an important event in the business affairs of Honolulu was the opening last night under delightful circumstances of the Ideal Clothing Company in its new home at 34 Hotel street. Crowds visited the new store during the opening and marveled at its up-to-the-minute appointments and beautiful display of goods while they were charmingly entertained by music and refreshments and the hospitable welcome of their hosts, the proprietors.

The Ideal exemplifies the coming of the new. Its whole arrangement speaks the ingenuity of the modern store architect. Its store windows, lighting and interior fixtures are the very last word in arrangement and make convenient the selection of goods by patrons as well as their display by the store.

To J. P. Medeiros, president of the company, belongs the credit of the new store. It was only after several weeks' careful study in New York City under the guidance of expert designers that Mr. Medeiros finally arrived at a selection of fixtures and window arrangement; and the design is based on the approved plans of the John Wanamaker men's store in New York.

The fixtures of the Ideal were made by the Grand Rapids Show Case Company. If one wants to buy a collar, the very style he wants is shown through a clear glass on a front pocket lined with black on the collar-drawer. Inside the drawer are all the various sizes. Shirts are all arranged so that you can see the one on the bottom as well as the one on top. Hats are all attractively displayed on a great rack that puts out from its glass case and revolves so you can select just the style you want without the bother of opening up boxes. All other goods are displayed in an equally convenient manner.

The window arrangement is the only one of its kind in Honolulu and shows

what the modern store can do toward making the most out of window display. The illumination of the windows will be with the wonderful new X-ray lights. These have not yet arrived but will be installed as soon as they reach here. It is said that these lights give a most remarkable illumination and the windows will be a blaze of light visible for blocks, yet the direct lighting will all be concealed and so soft as not to be a glare. At the entrance to the store are two shadow boxes for displaying goods. The credit for the very artistic window displays and interior decorating of the store for the opening belongs to Ben Seelig of the Ideal's floor staff.

The Ideal will handle the very finest lines of merchandise among which are several which have heretofore been considered sole agencies. First among the lines are the famous Adler-Rochester clothes. Then there are Manhattan shirts, Kaiser cravats and Cheney ties, Croft-Knappe famous hats, Schartz & Jeffree's boys' clothing. Besides, the Ideal is the only store in the territory licensed to sell official Boy Scout clothing.

The Ideal Clothing Company, Ltd., was incorporated under the laws of the territory of Hawaii November 23, 1912, and its brief history has been one of continuous and rapid growth. Its store motto is "It is not a sale until the customer is satisfied" which means a strict money-back policy. Its successful merchandising career, like the successes of all stores dealing with the public, can be attributed to a strict adherence to the "Honesty is the only policy" maxim, which is the "Honesty is the best policy" brought up-to-date.

The Ideal is a local concern whose stock is in the hands of many of Honolulu's progressive young men. The opening last night was a most enjoyable occasion attended by many. Kaul's Glee Club furnished the music.

## WAR'S EFFECT ON SUGAR REVIEWED IN WILLET & GRAY'S JOURNAL

Interesting sugar news is contained in the latest issue of Willet & Gray's Sugar Trade Journal, July 22. The following is timely:

**Raws.**—As we went to press last week it was generally expected that some of our refiners would enter the market for August shipment sugars, and this expectation was confirmed on Monday, when the American entered the market and purchased from 300-350,000 bags of sugar for August shipment at 3 7/8 c. and 4 c. (4.89). Besides this quantity other business was placed, bringing the total sales of August to about 400,000 bags. It seems, however, that these purchases did not clear the market of offerings, as there still remains a fairly large quantity of August unsold at 3 7/8 c. and 4 c. (4.89c), which up to the present writing has not been placed.

**Refiners.**—Interest did not extend to the July or prompt shipment positions, and the market quotation for these positions remains nominally unchanged at 4.86c, although a fair quantity is obtainable at 4.83c for Cubas and 4.80c for Porto Ricans. There are no particular advices to account for the easier tendency of the market, except that possibly some of the holders in Cuba, who have been holding sugars for a long time in the hopes of obtaining 4 c. and 4 1/2 c., may have given up all hope of obtaining this figure and are now satisfied to close out their holdings at the market price and thus end their interest in the present crop.

Outside of the one day's large business, the market has been comparatively quiet, with practically no sales reported. France, however, purchased 500 tons of San Domingos, in store here, at 3 3/4 c. f. o. b.

Receipts of raws at the Atlantic ports are less than the week's deliveries.

**If You** are troubled with heartburn, gases and a distressed feeling after eating take a **Rexall Dyspepsia Tablet** before and after each meal and you will obtain prompt relief. Sold only by us, 25c. Benson, Smith & Co., Ltd.

## Y. M. C. A. BOYS TO SPEND TEN DAYS ON ISLAND HIKE

Starting on a 100-mile hike around Oahu island, a party of 30 Y. M. C. A. boys and leaders left the association building at 9 o'clock today to be gone 10 days.

This afternoon the party inspected the Kaneohe coral gardens in a glass-bottomed launch. Tonight's camp will be made at Kaneohe, while Wednesday will be devoted to visiting the Waialeale tunnel, the boys being guests of Engineer J. Jorgensen.

Camp equipment, blankets and provisions are carried in a wagon which accompanies the party. Mornings will be used for walking, while the afternoons are to be devoted to fishing, swimming and side trips to points of interest en route.

Among those who left this morning are Charles F. Loomis, boys' work secretary of the association; O. P. Gump of Oahu college, Richard Whitcomb of Washburn college, Bailey Sayres, Fred Hartman, Allan Campbell, Arthur Neely, Orlando Schuening, William Hills, Joe Katsumata, Louis Reid, Clifton Mayne, Roy Jacobson, Douglas Bonamy, Jack Knott, Chilton Jones, Chris Willis, Yoken Mau, Quen Chew, Frank Block, Murray Heminger, Will Hartman and George Dobson.

These are expected to finish their crop soon.

**Europe.**—The government figures for France for the nine months ending June 1, 1915, show the effects of the war on production, consumption, exports and carrying stock, all of which show important decreases, with consequent increase in the imports. The decrease in consumption amounts to about 10,000 tons per month or approximately 17 per cent.

**London.**—Reports show 660,000 tons have been secured for July-December arrival in the United Kingdom. Taking the purchases of Javes at 400,000 tons (half white and half refining grades) with approximately 100,000 tons to come forward from Cuba (including alfalfa) in form of raws, and 55,000 tons American granulated, purchased so far, leaves 105,000 tons to come from various countries, among which are white sugars, while others are raws. The June consumption, although small, cannot be taken as a standard, as the January, June, six months' consumption of this year is only 22,873 tons less than that of the corresponding period last year, when normal times prevailed previous to the start of the war in August, 1914.

**Java.**—Mail advices just received confirm the cable of last May, stating that the Java harvesting was delayed by unseasonable weather, the cause being, as usual with cane crops, late rains, keeping the canes green and sugar yield low, interfering with harvesting and grinding. Cable advices printed by us last week showed total June exports as 89,900 tons, against 63,422 tons last year and 101,976 tons in 1913. With the high level of prices prevailing, this year's exports would undoubtedly have been larger if weather conditions would have permitted. Bavia reports state that considerable speculation has been going on in the Java markets for the 1916-17 Java crop, the harvesting of which does not start until May, 1916.

**Australia.**—Owing to the short crop in Australia, the government of that country has purchased the entire sugar crop in order to avoid any undue speculation in that article.
